### ALANNAH'S COMMENTS

Coming to a new public school, I was really nervous, but then I got to meet new people that can help me. I thought to myself that I could get more opportunities if I came up to a city instead of staying on the reservation. Turns out I was right! But moving away from home was difficult, but I learned to deal with it. I have about 5 core classes and 3 electives. They went really well, and I got to fit in sports with my schedule. The next semester was a tough one. I was really busy, but I still had time to complete things. I'm a really hard-working person when my grades go down. I try so hard at getting them up that it will sometimes work or I will fail. When I fail, I try my best not to think about it and I tell myself to get back up and try it again. Right now I'm going to be a Sophomore. And when I finish school, I'm planning on attending Harvard Medical, UNLV, or U of A. There are other schools out there, and I want to learn more about them.

## GROUPS AND ACTIVITIES

<b>Native American Club</b>	This club is about doing community services, fund-raising for trips, helping out with other schools, giving tutoring sessions. I enjoyed this club because I had the opportunity of meeting a lot more people and interacting with their cultures.	Aug 2007 - Jun 2008
<b>Ballroom Dancing</b>	This club was made to teach us steps and it also taught the men how to lead a woman and to learn to trust each other. We had this for two days every week. It was a pretty laid-back thing to do if you had some free time. I liked the program.	Nov 2007 - Jun 2008
<b>Link Groups</b>	The Link Group was a dorm activity that we put on for the Freshmen. It's basically small groups that a residential advisor gets to take out to dinner or do activities with. What I did in this group was arrange trips for students and activities to do.	Aug 2007 - Jun 2008
<b>Basketball</b>	I joined basketball this year and my freshman year I made the JV team. We had a record of 10 wins and 4 losses. We had a pretty good season and I can't wait to try out for the next season. In this program it taught me about teamwork and how to trust.	Nov 2007 - Feb 2008
<b>Upward Bound - Math/Science</b>	Enrolled into program after my freshman year to take related college courses and to engage with the college environment. My 2nd year I am getting familiar with the NAU campus and realized what university I want to attend and what to major in.	May 2008 - Present
<b>Student Council</b>	Elected Sophomore Rep.	Aug 2008 - May 2009
<b>Talent Search</b>	Signed up for Talent Search and have been introduced to many summer programs to see new universities. Participated in community clean-ups.	Oct 2008 - Present

My mother motivates me and always pushes me to try hard at everything I do, especially school. She has supported me since I was born and I'm willing to pay her back with a good education, because she deserves to see her little girl growing up and going the right direction.

**Relationship:** Father

My father is very helpful to me. He gives me a lot of good information on schools and what I should be doing and working on. He has supported me and I still haven't found out how to repay him. So, I'm trying my best in high school but it's a different environment so I'm adapting and going back to some great grades.
